Amateur arts groups – we need your help!

Throughout February 2008, the Government is running the first ever national survey of amateur arts groups in England.

Covering music, drama, dance, literature, visual arts and crafts – the plan is to get a clearer picture of amateur arts in England and how they could be better supported.

All amateur or voluntary arts groups are being asked to complete a short online questionnaire. Please go to:

www.artsurvey.org.uk

The survey will be 'live' throughout February – and arts groups who take part could win a cash prize!

With your help we can build a much better picture of the true contribution made by amateur arts groups.

Thank you.
